## PROJECTS

**Cloud-Native Polyglot Portfolio** | *GCP & DevOps* | **GitHub** **Nov 2025 – Dec 2025**

- Built and deployed a web application **(React + TypeScript)** with an optimized **Docker image (<25MB)**, enabling **near-instant startup** and faster load times.
- Automated the full release pipeline **(GitHub Actions)** — handling security scans, packaging, and cloud deployment in **under 2 minutes** with **zero manual intervention**.
- Provisioned 100% of cloud infrastructure as code (**Terraform**), enabling **one-command environment recreation** and eliminating human misconfiguration.
- Deployed on **Google Cloud Run**'s serverless platform with **scale-to-zero** capability, cutting compute costs by **~90%** vs traditional always-on servers.
- Implemented **Canary deployments (90/10 traffic split)** for **zero-downtime** releases with **automated rollback** if response time exceeded **1 second**.
- Enforced **Zero-Trust security (GCP IAM Least Privilege)** across all service accounts, achieving **0 vulnerabilities** in production security scans.

  ***Tech:*** *React, TypeScript, Docker, Nginx, Google Cloud Run, Terraform, GitHub Actions, GCP IAM, Cloud Monitoring*

**Smart Directory Manager** | *Python, Tkinter* | **Github** **Mar 2025 – Apr 2025**

- Built a desktop application **(Python + Tkinter)** that **automatically scans, categorizes, and organizes files** into structured folders — eliminating manual file sorting effort.
- Implemented **smart duplicate detection using MD5 hashing** to identify identical files regardless of filename, with **undo functionality** and **a preview-before-apply feature**.
- Designed a **real-time interactive UI** with **progress bars, status updates, and folder tree views** — enabling efficient management of large file systems.
- Delivered a scalable solution that streamlines digital clutter management, improving **file retrieval speed** and reducing wasted storage from **duplicate files**.

  ***Tech:*** *Python, Tkinter, OS, Shutil, Hashlib, Magic*

## CERTIFICATES

- CodeQuery: The Ultimate PL/SQL & Data Science Bootcamp | *Online* — Certificate Link **Jun 2025 – Jul 2025**
- JAVA Programming | *iamNeo* — Certificate Link **Jan 2025 – May 2025**
- Cloud Computing – Microsoft Azure | *InternsVeda* — Certificate Link **Dec 2024 – Jan 2025**

## ACHIEVEMENTS

- **Contributed in Open-Source Drive** — Open-Source Contributors Drive 2024, Github Students Club, LPU **September 2024**

## TECHNICAL SKILLS

- **Languages:** Python, JAVA, C++, JavaScript
- **Frameworks:** HTML, CSS, Tailwind CSS, Pandas, NumPy, TensorFlow
- **Tools/Platforms:** GCP, AWS, Oracle SQL, MongoDB, Power BI, Docker, Kubernetes, Jenkins
- **Skills:** Cloud Computing , DevOps, Data Structures and Algorithms, Shell Scripting

## EDUCATION

**Lovely Professional University**, **Aug 2023 – Present**
*Bachelor of Technology – Computer Science and Engineering;* CGPA: 8.1 Punjab, India

**St. Joseph's Secondary School**, **Apr 2021 – Mar 2022**
*Intermediate;* Percentage: 72 % Muzaffarpur, Bihar

**Oak Grove School**, **Apr 2019 – Mar 2020**
*Matriculation;* Percentage: 82 % Jharipani, Mussoorie
